

# Monterrey Development & Innovation Center

## About Us

### Our Drive

Power a world-class R&D center

### Did you know that...

- > 100% of population with 4.5+ years college degrees.
- > The center is mainly composed of mechanical, electric, mechatronic, industrial engineers and industrial designers.
- > The center generates an average of 12 patents per year.

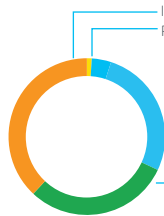

### Gender Balance

Female 34%  
Male 66%

### Academics

Industrial Design 40%  
PhD 1%  
Masters 28%  
Engineering 31%

## Our Teams

### ● Partner Global Engineering

Advanced Simulation  
Engineering Efficiency and Quality  
Engineering Rebalancing  
Final Distribution  
Finance  
Industrial Design & Ergonomics  
Labs Validation and Verification  
Low Voltage Components  
Low Voltage Equipment

### ● Partner Supply Chain

Industrialization  
Model Shop  
Purchasing

### ● Partner Projects

Low Voltage Program Management

### ● Information Technology Business

Advanced Simulation

### ● Industry

Industry Continuous Engineering

### ● Central Teams

Calculation & Simulation  
Technology Standardization

### ● Energy

Medium Voltage Equipment

### ● Information Process and Organization

EIS  
Competency & Support Center

### ● Human Resources

Business Partners  
IPO & Central Teams  
Partners  
Supply Chain

## Facilities

Building's energy management

- > EV Charging stations
- > Energy Efficient LED lights and controls
- > Solar Field (2014)

Candidate

Certified Laboratories

Model and Assembly shop

Schneider Electric Showroom

Datacenter

Innovation Studio

Training Rooms

Collaborative Areas & Terrace

7000 m² of Construction
